Menu of opportunities ...

At Lindfield Learning Village we value the opportunity to collaborate and share with other learners.

We invite you to choose the menu items which best suit your needs so that we can create a valuable learning experience for you and your team.

Our pricing enables us to cover costs involved in providing the right people to share the learning from our journey with you.

Please contact us for more information or to discuss bespoke options.

Entree

Learning Modules

Looking for something specific? Choose the learning module that suits your needs from the six options on page 4.

- Maximum number: 5
- Duration 2.5 hours
- Cost per module: \$2000

Catering

Catering is included in our main course options (page 4)
If you would like to add catering to an appetiser or entree through our onsite cafe:

Cost: \$30 a head for barista coffee, morning tea and lunch

Learning Module Options

Option 1: Immersion

Our immersion experience begins with a *Walk and Talk Tour* followed by a deep immersion in a learning space. Observe - be curious - ask your hairy audacious questions. Your experience concludes with a coffee and debrief with the educators.

Option 3: Human-centred design

How might you design learning with the individual at the centre? Learn about new ways to approach professional learning in your school and how we ensure wellbeing is at the heart through collaborative and proactive solutions.

Option 5: The Technology Trifecta +

This module explores the technology behind the learning CANVAS, Octopus, SeeSaw and Sentral. We will look at how learning design meets authentic assessment, live and continuous reporting and portfolios.

Option 2: Culture

In this option, we investigate the key components of our culture and how we use them with all stakeholders to protect that culture as we grow. We will also explore our use of Human Centered Design across the school.

Option 4: Teaching & Assessing what matters

Collaboratively building transdisciplinary learning, assessing what we value and building learning journeys centered on autonomy is our core business. These are things that go beyond the curriculum but ensure that the learning really matters.

Option 6: Collaborative pedagogy and practice

Gain insight into transdisciplinary learning design, pedagogical modes including play and maker, collaborative practice and co-teaching in flexible learning spaces. This module hits the detail of the “how” when it comes to future focused learning.

Main

Looking for a bit of everything? Mix and match the module options OR choose your own!
