

LLV IT Info for Parents/Carers & Students

Welcome to LLV!

We have put together this guide to help parents and carers and students navigate the programs and device procedure used at Lindfield Learning Village. It's a good idea to keep this document saved to quickly find links to programs and info on them.

If you have any questions or feedback, we'd love to hear from you. Feel free to email the IT Team at lindfieldlearningvillage@det.nsw.edu.au

Regards,

LLV IT Team

Getting Started at LLV – What to Expect in Your First Weeks

Third Party Programs Consent Form

You will receive an email with a form requesting parental consent for programs used at LLV. This form is completed every year as a requirement of the NSW Department of Education.

Parental consent is required for your child to use **Canvas** and **Seesaw**, our main learning platforms, among other programs. Please complete this form ASAP for your child to access these programs.

Kindy and Stage 1 – Enrolments Starting at and after Beginning of the Year

Kindy and Stage 1 students are assigned an iPad at school. This is coordinated by their educators.

Once the students are connected and signed up to **Seesaw**, you will receive an email with instructions on how to connect to see your child's work and progress.

Stage 2 and Up – Start of the Year Enrolments

Students from Stage 2 and up bring their own device under [LLV's BYOD Program](#).

Students are enrolled and set up in **Canvas** within the first 1 to 3 weeks of school, depending on your learning guide's plan. This is staggered to avoid overwhelming students with technology so they can focus on getting acquainted with new spaces and people.

Extra care is taken with students starting Stage 2 and Stage 4. Classes will be led by educators and the IT Support Team teaching students how to access and use **Canvas**, **Sentral**, **Wifi**, **Google** and any other programs used.

Once students are set up, parents and carers can view classwork on **Canvas**, learning outcomes on **Octopus** and general school information on **Sentral**.

Stage 2 and Up – Enrolments Joining After Start of the Year

In their first week of school, new students are set up across the various platforms and programs used at LLV.

Access to most programs will not be completed until a day or more after a student's first day of school. This is due to the NSW Department of Education's (DoE) enrolment and integrated systems processes. This process may take more time if the student is moving from a non-government school.

Parents and carers are emailed by the IT Support Team once access is ready.

An educator or member of the IT Support Team will ensure that the student is connected to the DoE **Wifi** network on their personal BYOD device, as well as making sure they have access to **Canvas**, **Sentral**, **Google** and any other programs needed for their classes.

Parent Access

Sentral

<https://llv.sentral.com.au/portal2/>

[Sentral Parent Mobile App Information](#)

Sentral is used for school communications with parents and carers. It can be accessed via the Sentral Parent mobile app or through an Internet browser on a computer or mobile device.

When your child starts at LLV you will be emailed an access key to access Sentral. This will include instructions on how to access Sentral as a parent.

School Calendar

<https://lindfieldlearningvillage.schools.nsw.gov.au/parent/school-calendar.html>

Events shown in the **Calendar** can be viewed on the school website. It shows term dates, important dates, as well as an export of our Sentral Calendar showing regular events by year groups.

Canvas

<https://llv.instructure.com>

Parents and carers of students in Stages 2 to 6 can see the classwork and activities set by their educators in **Canvas** through their parent observer account.

To log in for the first time, go to the above link and set up a password using *'Forgot Password'*. Your login will be your personal email address submitted in your student's enrolment.

Octopus

LLV tracks learning outcomes through live and continuous reporting. We use **Octopus** to display student progress in Stages 2 and up.

To access Octopus, go to **Canvas** and then any course that your child is studying. On the left-hand menu, you will see **Octopus**. This will take you straight to Octopus, no additional login is necessary.

Seesaw

<https://app.seesaw.me/#/login>

Students in Kindy and Stage 1 submit most of their work via **Seesaw**.

Parents/carers can view their child's work and learning outcomes via their **Seesaw** access. They can also view and comment on newsfeed style updates showing what's going in their child's class.

Parent access is managed by the student's Learning Guide. Once their class has been set up, an individual link and QR code is sent to parents and carers from their child's learning guide. This is organised after students have started at LLV.

Student Access

Students participate in learning at LLV using multiple programs and platforms.

Most program logins require the use of the student's **DoE login and password**. The password can be set up and updated by an educator or IT Support.

The **DoE login** will be the student's **firstname.lastname#**, for example: taylor.swift865

Students will be guided through accessing these programs by their learning guide and IT Support.

Sentral

<https://llv.sentral.com.au/portal2/>

Timetables and general information are found in Sentral.

Accessed with DoE login and password.

Seesaw

<https://app.seesaw.me/#/login>

Kindy and Stage 1 students use Seesaw to submit their work and receive learning outcomes.

Students are each assigned a class iPad by their learning guide to access Seesaw.

Canvas

<https://llv.instructure.com>

Student work in Stages 2 and up is organised, viewed, submitted and marked on Canvas.

Login:

firstname.lastname#@education.nsw.gov.au

DoE login Password

Google Classroom and Workspace

Stages 2 and up use tools from the Google Workspace for Education.

Students access this via their free Google DoE account set up when enrolling with the NSW Department of Education.

Access by logging into Chrome or Google using:

firstname.lastname#@education.nsw.gov.au
DoE login Password.

Wi-Fi

Students can log on to the DoE Wifi network anywhere in the school using their DoE login and password.

Internet @The Edge

<https://detnsw.net/>

This authenticates the use of a private device on the school network.

Student DoE login and password are used.

Student devices must log into this every day, so it's good idea to bookmark it.

BYOD Device Requirements

Our BYOD program requires students from Stage 2 and up to use their own Windows or Mac laptop.

Mobile phones/smartphones and iPads are not supported in the program.

Chromebooks can be used but do not have many of the features and programs available to NSW DoE students.

Device requirements are:

- Minimum 11.6-inch display
- Windows or MacOS operating system (**Windows is free for all NSW DoE students**)
- Wifi connection via 802.11n Wifi standard on the dual band both 5Ghz and 2.4Ghz frequency
- Advertised battery life of six hours or more.
- 4GB minimum Ram
- Solid state disk memory storage of 128GB or more
- 2kg max weight
- Google Chrome or Microsoft Edge browser installed.

It's also useful to consider having the following:

- Suitable protective case and/cover
- USB 2.0 and/or 3.0 ports
- Accidental loss and breakage insurance and/or warranty

If you are not familiar with these specifications, it's a good idea to show these requirements to any store that carries a range of computers. Keep in mind that your student has free access to Microsoft Windows and Office.

Students are responsible for having their devices charged and ready to use for the day.

IT support is available for all students during school hours for troubleshooting problems with their devices.

Software is available to students for free via the [NSW DoE Student Portal](#). This includes:

- Windows operating system
- Microsoft Office 365
- Minecraft Education Edition
- Adobe Creative Cloud and Adobe Programs Suite (Secondary only)
- Google Suite
- Canva

Support and Services

IT Support

IT support is available at the IT Hub on Level 5. Our office is found down the hall, to the right of the main Public Reception entrance.

We are available to see students at any time during school hours for support. Please encourage your child to ask their educators to see us if they encounter any problems with programs or devices during class time. Students are also free to visit us during break times.

For any other issues, parents and carers can contact IT Support at lindfieldlearningvillage@det.nsw.edu.au or on 02 9415 8006.

School Laptop Loans

Laptops are available for day loans from Public Reception, located on Level 5 next to the school's main entrance.

Long term laptop loans are also available for circumstances where students may not have access to a laptop for an extended period of time. Speak to your child's Learning Guide if you would like to organise this.

If a student wants to take a laptop home overnight, they are required to let Public Reception know. The laptop must be returned the following morning, even if they are re-borrowing for that day.
